PROFESSIONAL SUMMARY

Documentation Engineer and Information Architect with 20+ years of experience designing, automating, and scaling documentation systems across B2B SaaS platforms, API ecosystems, and complex developer-facing products. Deep practitioner of Docs-as-Code and DocOps, embedding documentation into CI/CD pipelines, Git workflows, and Agile sprints. Proven ability to ramp rapidly into any technical domain and translate complexity into precise, scalable content. Led documentation transformation across 5 product lines with a team of 8 writers. Actively building AI-powered documentation tools as a solo founder (DocCraft AI, PPT-to-Video pipeline). Open to remote, hybrid, or relocation opportunities globally.

CORE COMPETENCIES

Documentation Strategy	Information Architecture, Content Lifecycle, Taxonomy & Metadata, Progressive Disclosure	Docs-as-Code · DocOps · CI/CD Integration
API & Developer Docs	OpenAPI/Swagger, Postman, Redoc, REST References, Developer Portals, SDK Docs	MadCap Flare · DITA/XML · FrameMaker
AI & Automation	GPT-4o, GitHub Copilot, Azure TTS, Python, FastAPI, Prompt Engineering, AI Governance	Next.js · Hugo · Docusaurus · Git/GitHub
Leadership	Team Lead (8 writers), Stakeholder Management, Style Guide Ownership, Content Governance	Cross-functional · Agile · DevOps
Domain Versatility	Rapid ramp-up across regulated, integration-heavy, developer-facing, and enterprise technical domains	Figma · JIRA · Confluence · VS Code

HIGH-IMPACT ACHIEVEMENTS

- **80% Cost Reduction:** Reduced localization costs by 80% at Avaya through XML-based image management and InDesign migration — eliminating per-image translation overhead across multi-language releases.
- **Solo-Built AI Tool:** Built and launched DocCraft AI (Next.js + GPT-4o) — a full-stack documentation generator with compliance checking, diagram generation, and multi-format export.
- **Automation Pipeline:** Engineered a PPT-to-Video automation pipeline (Python · FastAPI · Azure TTS · FFmpeg, ~1,800 lines) — automated narrated video tutorials and product walkthroughs, eliminating manual screen recording dependencies for narrated documentation.
- **GitHub Migration:** Led end-to-end GitHub migration of GitLab documentation workflows, designing branching models that cut release misalignment and improved traceability across 5 product lines.
- **AI Governance:** Piloted GitHub Copilot adoption across a team of 8 writers — defined prompt standards, review workflows, and governance controls. 4 of 7 evaluated AI tools formally adopted.

- **Recognition:** Star Performer recognition — 3× at NICE Actimize. 97% editorial quality score at Avaya (Writer of the Month).

PROFESSIONAL EXPERIENCE

Documentation Team Lead · Senior Specialist Technical Writer | **NICE Actimize (NICE Ltd.)** | Pune, India
Jan 2017 – Mar 2025

- Owned end-to-end documentation lifecycle for 5 enterprise platform solutions (on-prem and SaaS) — aligning documentation roadmaps with product releases and engineering milestones in Agile sprints.
- Owned and continuously improved the DOCenter customer-facing documentation portal — search relevance, navigation architecture, content discoverability, and self-service adoption.
- Served as documentation escalation and governance authority across enterprise clients; resolved cross-functional release gaps and ensured quality and consistency across all product lines.
- Delivered API reference documentation, SDK integration guides, developer portal content, user/admin guides, and technical specifications for complex, integration-heavy enterprise platforms.
- Collaborated with Customer Support to identify documentation gaps via support ticket analysis — delivering troubleshooting guides and knowledge base content that reduced escalations.
- Mentored and developed 8 writers: Git workflows, conflict resolution, rebase strategies, documentation, CI, JIRA, and MadCap Flare.

Information Engineer · Technical Writer | **Avaya India Pvt. Ltd.** | Pune, India *Jul 2013 – Jan 2017*

- Authored deployment and configuration documentation for enterprise communication platforms serving global enterprise clients.
- Reduced localization costs by 80% through XML-based image management and Adobe InDesign migration — recognized with Writer of the Month and 97% editorial quality score.

Technical Writer | **SunGard Technology Services** | Pune, India *Feb 2010 – Jun 2013*

- Developed user guides and online help for enterprise software serving global markets; collaborated with cross-functional international teams for release-aligned delivery.

Technical Writer | **Fundtech India Ltd.** | Pune, India *Aug 2008 – Feb 2010*

- Authored and maintained documentation for complex enterprise workflow systems in collaboration with BAs, developers, and QA teams.

Technical Author · Content Developer | **Commit Technologies / True Advantage** | Pune, India
Apr 2006 – Aug 2008

- Developed technical documentation, white papers, and customer-facing content for enterprise software products.

PORTFOLIO & AI PROJECTS

DocCraft AI | Full-stack Next.js + GPT-4o documentation generator with standards compliance checking, diagram generation, and multi-format export. Live Demo →

PPT-to-Video Pipeline | Python · FastAPI · Azure TTS · FFmpeg (~1,800 lines) — on-demand narrated video automation eliminating manual recording. GitHub →

Documentation Portfolio | 10 live sites on GitHub Pages — API docs, developer portals, structured authoring samples, CaseForge demo portal. View Samples →

EDUCATION & CERTIFICATIONS

MBA in Human Resources · Wigan and Leigh College, UK *2004-2006*

PG Diploma in Mass Communication · Jadavpur University, Kolkata *2002–2003*

B.Sc. Mathematics, Physics & Electronics · Burdwan University *1998–2002*
