Professional Summary

Senior Technical Writer and Documentation Leader with 19+ years of experience in **FinTech and enterprise SaaS** environments, leading cross-functional documentation teams and delivering scalable content strategies for enterprise platforms serving global financial institutions. Specialist in architecting scalable documentation ecosystems across on-prem and cloud-native platforms, integrating documentation into **Agile SDLC** and **CI/CD workflows**.

Proven expertise in **API documentation**, structured authoring, **Docs-as-Code**, AI-assisted content enablement and automation-driven content delivery. Proven track record of modernizing documentation functions through Git-based workflows, AI tool adoption, and platform-level automation initiatives. Recognized for transforming documentation from a support function into a strategic enablement capability that improves product adoption and operational efficiency.

Deep domain expertise in **Fraud Prevention**, financial crime compliance, payment workflows and integration-heavy enterprise systems.

Skills

Tools & Technology	Methodology & Practice
• **Tools:** MadCap Flare, Arbortext, FrameMaker, RoboHelp, VS Code, SnagIt, Visio, Camtasia, Canva • **Docs-as-Code:** GitHub, GitKraken, Markdown, HTML, Static Site Generators • **API Documentation:** Swagger/OpenAPI, Postman, Redoc • **Diagramming:** Lucidchart, Draw.io, Figma, Visio • **AI & Automation:** Azure TTS, GitHub Copilot, Confluence Rovo, NotebookLM, Napkin AI, Claude, Grammarly, Perplexity, GenAI tools • **Collaboration:** JIRA, Confluence, SharePoint • **Standards**: DITA, Information Mapping, XML • **Languages:** HTML, CSS, XML, SQL, Python (automation)	• Documentation Strategy • Information Architecture • API Documentation • Docs-as-Code • Git & PR Governance • DevOps Collaboration • AI-Assisted Documentation • Prompt Engineering • Automation Workflows • FinTech & Fraud Systems

Strategic Initiatives & Organizational Impact

Documentation Ecosystem Transformation – NICE Actimize

- Led end-to-end redesign and standardization of documentation architecture across Fraud and SaaS products, defining reusable templates, metadata strategy, governance models, and release-aligned content workflows.
- Influenced DOCenter (documentation portal) roadmap by improving search relevance, filtering logic, content discoverability, and structural consistency across product lines.
- Established visual identity standards (PDF templates, infographic usage, branding alignment) in collaboration with Marketing and cross-functional stakeholders.

Docs-as-Code & DevOps Integration

- Led GitLab-to-GitHub documentation workflow transition, defining branching models (feature branches, PR reviews, merge governance), reducing release misalignment and improving documentation traceability.
- Embedded documentation into SDLC using Markdown, Git, and PR-driven reviews to ensure technical accuracy and synchronized releases.
- Mentored and developed 8 writers across Fraud and SaaS product teams over 9 years, coaching on tools including Jira, Git, and MadCap Flare, as well as content planning, Git usage, conflict resolution, rebase strategies, and documentation CI workflows.

AI & Tooling Innovation Leadership

- Piloted GitHub Copilot adoption within the documentation team, defining best practices for prompt engineering, review workflows, and safe AI-assisted drafting — rolled out across 8 writers with defined prompt standards and review governance.

- Conducted structured evaluation of 7 AI and productivity tools (GitHub Copilot, Confluence Rovo, NotebookLM, Napkin AI, Claude, Grammarly, Perplexity), defining integration feasibility and use-case boundaries for enterprise adoption — resulting in 4 tools formally integrated into the team's documentation workflow.
- Established an AI usage framework for documentation teams, including prompt design standards, review checkpoints, and governance controls to ensure accuracy and compliance — adopted across a team of 8 writers.
- Positioned AI as an assistive accelerator rather than a replacement, improving efficiency while maintaining quality governance.
- Designed and deployed DocCraft AI, a full-stack Next.js/GPT-4o application that converts raw content into MSTP-compliant documentation, with compliance checking, diagram generation, and multi-format export. Built as a portfolio demonstration of an AI-assisted documentation tool. *See live demo: https://doccraft-ten.vercel.app/*

Automation-Driven Documentation Delivery

- Conceptualized and implemented a PPT-to-Video automation initiative integrating Python scripting, Azure Text-to-Speech, PowerPoint automation, and asynchronous API orchestration.
- Established secure VM-based Microsoft 365 automation environment for enterprise-compliant video generation.
- Designed scalable video generation workflows, eliminating dependency on manual recording and third-party editing tools and enabling on-demand narrated video output directly from PowerPoint source files. *See live project: https://github.com/SulagnaSasmal/ppt-to-mp4-doc-automation*

Professional Experience

- **NiCE Actimize | Documentation Team Lead | Senior Specialist Technical Writer |** NICE, Pune, India | January 2017– Present
  - Own and drive the end-to-end documentation lifecycle for **Fraud Prevention** platforms (on-prem & SaaS), aligning documentation roadmaps with product releases and engineering milestones in an Agile environment — spanning 5 Fraud Prevention solutions (IFM, EF, and related channels) across both on-prem and SaaS deployments.
  - Serve as documentation escalation and governance authority, resolving cross-functional release gaps and ensuring compliance alignment across 5 Fraud Prevention solutions and enterprise clients.
  - Deliver API documentation, user/admin guides, and technical specifications for integration-heavy systems.
- **AVAYA INDIA PVT. LTD. | Information Engineer | Technical Writer |** Pune, India | July 2013 – January 2017
  - Authored deployment and configuration documentation for enterprise communication platforms.
  - Reduced localization costs by 80% across the enterprise communication platform documentation suite by migrating content format to Adobe InDesign and implementing an XML-based image management approach, eliminating per-image translation overhead.
  - Awarded "Writer of the Month" with a 97% editorial quality score.
- **SunGard Technology Services | Technical Writer |** Pune, India | February 2010 – June 2013
  - Developed user guides and online help for Investment Banking software supporting European markets.
  - Collaborated with cross-functional global teams to ensure release-aligned, technically accurate documentation.
- **Fundtech India Ltd. | Technical Writer |** Pune, India | August 2008 – February 2010
  - Authored and maintained documentation for enterprise payment workflow systems, collaborating with business analysts, developers, and QA.
- **Commit Technologies Pvt. Ltd. | Technical Author |** Pune, India | January 2007 – August 2008
  - Developed technical documentation, white papers, and customer-facing content for enterprise software solutions.
- **True Advantage | Content Developer |** Pune, India | April 2006 – December 2006
  - Researched and created structured content for web and marketing content using MS Office tools and SQL.

Achievements

- **Content Standards & Governance:** Developed and rolled out documentation standards adopted across the entire NICE Actimize product suite at NICE Actimize, including branding guidelines, style frameworks, and infographic standards, improving consistency across **Fraud Prevention** and **SaaS** product documentation.
- **Recognition for Excellence:** Honored as "**Star Performer**" 3 times at NICE Actimize; consistently recognized for excellence across all previous roles, including Avaya, SunGard, and Fundtech.

Education

- **PGDBM in HR Management** | 2004-2006 | Wigan & Leigh College, Pune, India
- **Post Graduate Diploma in Mass Communication** | 2002-2003 | Jadavpur University, Calcutta, India
- **B.Sc. (Math, Physics, Electronics)** | 1998-2002 | Burdwan University, Burdwan, India
